db ARMOR™

Heatshield Products db Armor™ is a superior sound damping sheet that raises the bar in the industry. It is thinner and lighter than comparative products and delivers triple the sound-deadening performance!

Addressing one of the biggest compromises that car builders face when adding sound deadener, db Armor™ is 20% lighter than comparable sound-deadening products. Heatshield Products has accomplished the weight reduction while improving sound-deadening capability, delivering three times the sound-deadening performance of similar products. The db Armor™ is even one and a half times more effective than the highest-rated sound-deadening products on the market!

At only .052-inch (6 mil) thickness, db Armor™ can be applied in even the tightest spaces, and it can be adhered to steel, aluminum, finished fiberglass and plastic. db Armor™ acoustical energy suppression capabilities rival that of standard sound-barrier materials. Applying db Armor™ to any steel, aluminium, plastic or finished fiberglass surface will decrease structural resonance, producing a tighter, quieter and more comfortable ride. In addition, its adhesive backing provides solid and worry-free attachment.

FEATURES

- 30% thinner and 20% lighter; provides superior sound-deadening capability than most products
- Lightest weight material with the thickest aluminum damping layer currently available
- Weight: 0.39 lbs per square foot
- 0.052 inch thick

PART NO.	DESCRIPTION
040012	21 X 19.5 in (x4) Approx 15 sq/ft
040013	21 X 19.5 in (x10) Approx 29 sq/ft
040014	21 X 19.5 in (x20) Approx 58 sq/ft
