

#RACETESTED

HP SPRING™

HP Spring™ from Heatshield Products is an innovative fastening method for turbo heat shields, exhaust heat shields, and more. Lock down your heat protection with a HP Spring by Heatshield Products. These high-temperature 302 stainless steel springs are built to last and take whatever heat you can throw at them.

HP Springs come with two configurations. Available with shepherd hook ends or coil up ends both lock hold together even under the toughest of conditions. Use needle-nose pliers for installation of a heat shield spring

FEATURES:
