Heat Shield Barrier

INFERNO™ SHIELD

More than just another heatshield, the Inferno Shield™ can be custom configured to handle whatever your thermal requirements are. It can be bent, folded and twisted to form a near-infinite number of custom shapes. Our Inferno Shield™ heatshields come in two different grades of alloy: aluminum (900 degrees F continuous) and stainless steel (1,800 degrees F continuous). Each of these alloy heatshields has an inner BioCool™ pad that can be trimmed, then an outer alloy layer can be folded over for a custom size or fit. Larger and custom heatshields are available with volume purchase. These heatshields may be fastened with Thermal-Tie™, safety wire, screws or rivets.

FEATURES:

● **1800°F** CONTINUOUS ● **2000°F** INTERMITTENT

- Capable of reflecting over 90% of radiant heat
- Flexible, bends and will hold its shape
- Simple installation, install in minutes!
- Perfect radiant heat shield for mufflers, catalytic converters, DPF, and more
- Made in the USA

PART NO.	DESCRIPTION
110614	Aluminum 6 in x 14 in
120614	Stainless 6 in x 14 in
120620	Stainless 14 in x 20 in
120636	Stainless 24 in x 36 in
